

Bearing Supplier Change

For the Stolle Ragsdale Bodymaker and the Stolle Concord Decorator / Basecoater
September 2007

An important part of Stolle's commitment to its customers is seeking out and supplying continuous improvement in all areas. The *StollePlus* program is the embodiment of this commitment, particularly concerning spares and service. After careful review and investigation, we have determined that we can offer improved quality and delivery of bearings by switching suppliers for certain critical areas of our equipment. This will result in greater consistency and increased life times for these bearings and their surrounding parts between maintenance cycles.

We will be phasing out the RBC bearings and switching to equivalent McGill bearings over the next several months. The list of bearing part numbers that are impacted by this change are listed below. All but one of the McGill bearings we will be available at the same price as the RBC equivalent. The one exception is for part number 222015878 which has a minor price increase.

Ragsdale Bodymaker		
RBC P/N	McGill P/N	Usage
703465	222015877	Redraw Idler
705896	222015878	Redraw Carriage
703584	222015875	Push Rod Lug
705870	222015879	Ram Guidance
705806	222015876	Connecting Rod

Concord Deco/Coater		
RBC P/N	McGill P/N	Usage
703112	222015880	Mandrel Arm
704000	222015881	Mandrel Arm
