

Proven Performance

With nearly 700
cupping systems
in the world,
98%
of all cups are
made on Stolle
equipment!

The #1 Choice of Canmakers

The Stolle Dynaform and Triton Cuppers are the foundation of most can lines, producing the majority of the cups for 2-piece beverage cans. And since quality cans begin with quality cups, these machines are the first choice in can lines around the world - day after day, year after year.

Why settle? Get the equipment that canmakers trust.
